

→ Grand total of Revenue.

QUESTION 3.

PAC chart.

Given Data.

- N (Total students)
- Mark (Marks of S subjects)

Required Results.

- Individual Student Result
- Fail - Subject deficiency
- Pass, fail or Distinction?

~~Processing~~ Processing Required

- loop from 1 to N for students.
- Inner loop ~~for~~ 1 to S for each subjects Marks.
- Sum the Marks $Sum \leftarrow Sum + Marks$ Avg.
- Calculate Avg $\leftarrow Sum / S$
- if Marks < 33 THEN
SubD $\leftarrow TRUE$

Alternative Solution.

- if SubD = TRUE then student fails automatically due to ~~the~~ subject deficiency ~~irrespective~~ regardless of Avg.
- if ~~SubD~~ subD = FALSE only the evaluate Avg.

Date:

- if sub D = TRUE THEN:
• ~~if~~ student has
subject deficiency
- otherwise Assign grade
according to the avg.
